○ Work Experience

Web Developer/Consultant, Catalyst Devworks

Baltimore, MD - 2014-present

Developed web applications for clients using agile methods. Implemented features according to project requirements both working alone and in a team up to 5 developers.

Accomplishments:

- Merchant Reporting Tool - Worked to improve customer-facing web application for a major credit card payment processor
- Data Center Migration - Updated 3 applications to run in new data center and provided off-hour production support
- Confirmation File Parser - Added parser to existing webapp to provide readable output of a file
- Abstract USB Project - Developed web application for a conference held by a large non-profit organization

Interim Geometry Teacher/Substitute Teacher, Martin County School District

Stuart, FL - 2013-2014

Taught 8th grade geometry and intensive pre-algebra. Responsible for writing and carrying out lesson plans.
